Accessibility Policy and Plan

First Version implemented	Current version adopted by school	Review date	Responsible person
January 2023	January 2023	January 2026	Headteacher

You are disabled under the Equality Act 2010 if you have a physical or mental impairment that has a 'substantial' and 'long-term' negative effect on your ability to do normal daily activities

Westbourne Primary School is part of the Priestley Academy Trust and both are aware of the general duty under the Equality Act 2010 to:

- Eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act.
- Advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it.
- Foster good relations between persons who share a protected characteristic and persons who do not share it.

The Accessibility Plan has been drawn up in consultation with stakeholders and covers the period from January 2023 – January 2026.

We are committed to providing a fully accessible environment which values and includes all students, staff, parents/carers and visitors regardless of their age, education, physical, sensory, social, spiritual, emotional and cultural needs.

We are committed to challenging negative attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion. The Accessibility Plan will contain relevant actions to:

- Improve awareness of Equality and Inclusion.
- Improve access to the physical environment of the school, adding specialist facilities as necessary. This covers improvements to the physical environment of the school and physical aids to access education.
- Increase access to the curriculum for students with a disability, expanding the curriculum as necessary to ensure that students with a disability are as, equally, prepared for life as are the able-bodied students; (If the school fails to do this they are in breach of the Equality Act 2010). This covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits. It also covers the provision of specialist aids and equipment, which may assist these students in accessing the curriculum.
- Improve the delivery of written information to students, staff, parents/carers and visitors with disabilities. Examples might include handouts, timetables, textbooks and information about the school and any events. The information should be made available in various preferred formats within a reasonable time frame.
- Work with appropriate organisations to ensure accessibility is appropriate for all students, staff and visitors.

Action Plans relating to these key aspects of accessibility are included in this policy and these plans will be reviewed and adjusted on an annual basis. New plans will be drawn up every three years. We acknowledge that there is a need for ongoing awareness raising and training for staff and governors in the matter of disability discrimination and the need to inform attitudes on this matter.

The Accessibility Plan should be read in conjunction with the following policies, strategies and documents:

- Curriculum
- Equality Duty and Objectives
- Health & Safety (including off-site safety)
- Inclusion
- Special Needs
- Behaviour Management
- School Development Plan
- Complaints procedure

The Action Plan for physical accessibility relates to the Access Audit of the school, which is undertaken regularly. It may not be feasible to undertake some of the works during the life of this first Accessibility Plan and therefore some items will roll forward into subsequent plans. The audit will need to be revisited prior to the end of each first three-year plan.

Improving the delivery of written information to students with a disability

This will include planning to make written information that is normally provided by the school to students is available to disabled students. Examples might include handouts, textbooks and information about school events. The information should take account of students' disabilities and students and parents/carers preferred formats and be made available within a reasonable timeframe.

In planning to make written information available to disabled students we need to establish the current level of need and respond to changes in the range of need. We will identify agencies and source of such support and materials to make the provision available when it is required. The school ICT infrastructure will enable us to access a range of material supportive to need.

Written Information			
Targets	Strategies	Timescales	Desired Outcome
Make available school brochures, newsletters and other information and in materials, for parents/carers in alternative formats (when needed).	Review all current school publications and promote the availability in different formats for those that require it. The school will make itself aware of the services available for converting written information into alternative formats.	Ongoing	The school will be able to provide written information in different formats when required for individual format
Written material will be made available in alternative languages (when needed)	The school will seek to translate key information when it is required. The school will explore translation services such as telephone translation.	Ongoing	Information for all

Improving access to the physical environment of the school

The school is continuing to develop. We have a wide range of equipment and resources available for day to day use. We keep resource provision under constant review. The school's Improvement Planning process is the vehicle for considering such needs on an annual basis.
